

PAUL OLIVER E. CRUZ

Web Developer | Front-end Developer

Batangas, PH • cruzpauloliver@gmail.com • (63) 992 629 6059

<https://cruz-portfolio-nine.vercel.app>

EDUCATION

Batangas State University – The National Engineering University

BS Computer Science

Bauan Technical Integrated High School

Alangilan, Batangas

August 2022 – July 2026

Bauan, Batangas

June 2016 – March 2022

EXPERIENCE

Internship: Center for Artificial Intelligence and Smart Technologies (CAIST)

Front-end Developer

Batangas City, Batangas

June 2025 – July 2025

- ◆ Converted Figma designs into pixel-accurate, responsive interfaces using Laravel, Livewire, and Filament.
- ◆ Built reusable front-end components within an AI research center environment, reducing turnaround time on interface updates.
- ◆ Collaborated with the design and research team to implement UI matching specs with minimal revision cycles.

Freelancing

Webflow Developer

Remote

April 2026 – Present

- ◆ Designed and built responsive, user-friendly websites in Webflow, delivering projects on time while maintaining quality.
- ◆ Managed client communication and revisions end-to-end, ensuring deliverables matched brand and content goals.

SKILLS

Programming Languages: HTML, CSS, JavaScript, Python, PHP

Tools: Git, GitHub, VS Code, Netlify, Vercel

CMS | Website Builders: Webflow

Front-end Technologies: React, Next, Tailwind

Backend & Frameworks: Laravel, Livewire, Filament, Supabase, Firebase

AI Tools: ChatGPT, Claude, Claude Code, Codex CLI, Antigravity CLI, Llama, GravityWrite, Mistral

PROJECTS

Nexus Creatives — Web Agency Business Website *Next.js, Tailwind, GSAP, React*

<https://www.nexuscreatives.dev>

Built the agency's client-facing marketing site from scratch with GSAP-driven animations and a component-based React architecture, positioning it as the primary client acquisition channel.

Reveria — Concert Memory Vault *Next.js, Tailwind, Google Auth, Setlist.fm API, Ticketmaster API*

<https://reveria-xi.vercel.app>

Built a full-stack concert memory tracker solo, integrating Setlist.fm and Ticketmaster APIs to auto-populate setlists and event details, with Google authentication for secure sign-in.

Lumière — Hair Salon Booking & Admin Platform *Next.js, Supabase, Tailwind*

<https://booking-system-template-kohl.vercel.app>

Built a full-stack salon booking platform end-to-end, including a Supabase-backed admin dashboard for managing appointments and eliminating manual scheduling.

HotBook - Hotel Booking System *Next, Tailwind, Mistral, Firebase*

<https://hotel-booking-app-pearl-gamma.vercel.app>

Built the full-stack hotel booking experience — frontend interfaces, Firebase authentication, and database operations — for a seamless, real-time reservation flow.

Tanaw - SDG Promotion Social App *Next, Tailwind, Supabase*

<https://github.com/DanielleZiac/TANAW>

Built responsive social media interfaces and reusable UI components enabling users to discover, share, and engage with SDG-focused content.

Thesis: Algorithmic Selection of Prompting Techniques for Enhancing LLM Mathematical Problem-Solving Performance *Next,*

Python, Llama, FastAPI, Firebase

<https://github.com/Cerphh/prompt-optimization-framework>

Engineered a benchmarking system that algorithmically evaluates and selects prompting techniques, improving LLM accuracy and reasoning quality on mathematical problem-solving tasks.

COURSES AND SEMINARS

SimpliLearn — Free Webflow Course

June 2026

SimpliLearn — Build Website With AI

June 2026

SimpliLearn — Learn WordPress

June 2026

AWS Academy — Machine Learning Foundations Training

December 2025

CISCO Networking Academy — CCNAv7: Introduction to Networks

January 2024
